Experience It! Tortuguero National Park

Located on the Caribbean Coast, this remote national park (accessible only by boat or airplane) is one of Costa Rica's most popular ecotourism destinations. Tortuguero — that translates to “region of turtles” in Spanish — is the most important nesting site of the green sea turtle. Four of the world's eight species of sea turtles call Tortuguero their home including the Leatherback, Olive Ridley, Loggerhead and Hawksbill turtles. With over twenty miles of coastline and over 46,000 protected acres, the park is also home to a variety of animal species including jaguars, reptiles, macaws and over 300 species of birds. Wildlife and nature are abundant in this biologically diverse park consisting of several habitats including rainforest, mangrove forests, swamps, beaches and lagoons. Your lodging at the edge of the park offers environmentally friendly accommodations and a network of rainforest trails throughout the property. Here you are able to relax in comfort while being in complete harmony with nature.
